Programme Specific Outcomes (PSOs) For Undergraduate Programme

After this programme, the learners will be able to:

PSO 1	<p>The student will be able to:</p> <ul style="list-style-type: none"> • This course will provide students the basic concept of Education. • The student will be able to understand relation between education and society. • This course will help to develop a stronger orientation towards research. • This course will conceptualize the basic elements of Indian Constitution. • The student will be able to explain the importance of values, mental health and hygiene. • This course will develop a comprehensive understanding of the nature, types, and classification of values. • This course will explore the impact of values on individual behavior, societal norms, and cultural frameworks. • This course will evaluate the influence of values in educational institutions and their role in holistic student development.
PSO 2	<p>The student will be able to:</p> <ul style="list-style-type: none"> • Analyze the intricate relationship between education and psychology, emphasizing their mutual influence on cognitive and behavioral development. • Explore the fundamental laws of learning and their role in shaping effective teaching and learning experiences. • Examine the concepts of creativity, memory, and interest, highlighting their significance in the learning process. • Investigate the significance of the transfer of learning in facilitating knowledge retention, skill development, and real-world application. Investigate the processes involved in nurturing and stimulating creativity, fostering innovation and critical thinking in learners. • Analyze the relationship between creativity and education, emphasizing its role in holistic development and problem-solving skills. • It will help the students to predict academic and vocational potential helping identify strength and weakness in cognitive areas. • It will help students to understand various personality traits and predict behavior and interactions. • Examine the historical evolution of lifelong learning, extension activities, and outreach programs as catalysts for societal development. • Investigate the role of non-governmental organizations (NGOs) in promoting lifelong learning, with a specific focus on Zila Saksharta Samiti, Bharat Gyan Vigyan Samiti, and Literacy House. • Assess the contributions of UNESCO in advancing lifelong learning policies and global educational initiatives. • Understand the significance of lifelong learning in fostering continuous skill development, employability, and social inclusion. • Examine policy frameworks and government interventions that support lifelong learning at national and international levels.
PSO 3	<p>The student will be able to:</p> <ul style="list-style-type: none"> • Examine the fundamental principles and objectives of educational philosophy in fostering intellectual and moral development. • Investigate the perspectives of prominent educational thinkers, evaluating their contributions to the evolution of educational theories and practices. • Examine the core tenets of Western philosophical traditions, including Idealism, Realism, and Pragmatism in relation to education. • Analyze the role of educational philosophy in addressing contemporary challenges in

	<p>education and fostering critical thinking.</p> <ul style="list-style-type: none"> • Conduct a detailed and critical review of a book authored by a distinguished educational thinker included in the course curriculum. • Develop a profound understanding of the objectives, structure, and methodologies involved in academic and educational book reviews. • Collect, organize, and synthesize relevant information on the works, theories, and contributions of significant educational scholars • Develop a comprehensive understanding of the concept, principles, and evolution of inclusive education in India. • Examine the policies, frameworks, and legislative measures supporting inclusive education at national and international levels. • Explore effective strategies for addressing the diverse educational needs of special children within an inclusive classroom setting. • Investigate the essential skills, roles, responsibilities, and professional qualities required of an inclusive educator. • Examine the critical role of guidance and counseling in fostering the academic, emotional, and social well-being of students in inclusive settings. • Develop a comprehensive understanding of the concept, necessity, and scope of sustainable development in a global context. • Analyze the roles and responsibilities of governments, non-governmental organizations (NGOs), and international bodies in promoting sustainable development. • Investigate the relationship between education and the achievement of the United Nations Sustainable Development Goals (SDGs). • Evaluate the role of education in fostering global citizenship, equity, and social justice to create a more inclusive and peaceful world. • Develop critical insights into policy frameworks and best practices for advancing sustainability through education at local, national, and global levels.
PSO 4	<p>The student will be able to:</p> <ul style="list-style-type: none"> • Develop awareness of various patterns of human development and their implications for learning and teaching. • Explore key theories of learning, assessing their contributions to educational practices and student engagement. • Examine the factors influencing individual differences, including genetic, environmental, and socio-cultural determinant • Investigate Jean Piaget's Cognitive Developmental Theory and its application in educational settings. • Examine Lev Vygotsky's Social Development Theory, focusing on the role of social interaction in learning. • Analyze Piaget's Theory of Moral Development and its relevance in fostering ethical and moral reasoning in learners. • Explore the concept of motivation, including its meaning, nature, types, sources, and its role in the learning process. • Examine the principles of mental health and hygiene, identifying factors that affect children's psychological well-being and strategies for promoting mental wellness in education. • Develop the ability to assess student adjustment levels using standardized tools such as the Revised Adjustment Inventory and Social Adjustment Inventory. • Develop a comprehensive understanding of the fundamental concepts, principles, and significance of human rights. • Examine the historical evolution and philosophical foundations of human rights in a global context. • Analyze the role of the United Nations in promoting, protecting, and upholding human

	<p>rights worldwide.</p> <ul style="list-style-type: none"> • Explore key international human rights instruments, including the Universal Declaration of Human Rights (UDHR) and various UN conventions. • Explore contemporary human rights challenges and emerging issues in a rapidly changing global landscape. • Explore key theories related to the evolution of gender concepts, assessing their relevance in modern gender studies. • Examine the formation and expression of gender identities in various formal and informal organizational settings. • Investigate policy frameworks and legal provisions that support women's rights and empowerment at national and international levels. • Identify challenges and barriers to gender equality and evaluate strategies for promoting inclusive and equitable opportunities.
PSO 5	<p>The student will be able to:</p> <ul style="list-style-type: none"> • Develop analytical skills to critically evaluate integration policies and educational practices at both national and international levels. • Investigate the objectives and key provisions of the National Education Policy (NEP), highlighting its transformative vision for the education system. • Assess the implications of the NEP on higher education, school education, skill development, and lifelong learning. • Examine policy reforms aimed at enhancing equity, quality, and accessibility in education under the NEP framework. • Develop analytical and critical thinking skills to evaluate policies and practices related to national and international integration in education. • Analyze the relationship between education, national integration, and the promotion of cultural harmony and social cohesion. • Examine the role of education in fostering international understanding, global citizenship, and cross-cultural exchange. • Explore policy initiatives at national and global levels aimed at strengthening inclusive and equitable education systems. • Develop a comprehensive understanding of the objectives and aims of teacher education at various educational levels. • Explore the role of various national and international organizations in shaping teacher education policies and practices. • Examine the role of accreditation bodies, teacher training institutions, and policy frameworks in ensuring the effectiveness of teacher education. • Develop a comprehensive understanding of the concept, functions, benefits, and limitations of Information and Communication Technology (ICT) in education. • Explore the significance of Massive Open Online Courses (MOOCs) and effectively utilize platforms such as SWAYAM for professional and academic growth. • Develop the ability to access, collect, and integrate educational materials from Open Educational Resources (OERs) to enhance teaching and learning.
PSO 6	<ul style="list-style-type: none"> • Develop a comprehensive understanding of the evolution, structure, and key components of the Indian education system. • Critically analyze the recommendations of various education commissions and committees, assessing their impact on policy and practice. • Assess the relevance and applicability of India's educational heritage in contemporary education policies and reforms. • Analyze the role of NEP 2020 in preserving and integrating India's educational heritage with modern innovations. • Gain proficiency in utilizing statistical tools and techniques for data analysis in educational research.

	<ul style="list-style-type: none"> • Explore qualitative and quantitative research methods, their strengths, limitations, and appropriate applications. • Understand the meaning, definition, and scope of statistics in the context of education and research. • Develop expertise in calculating and interpreting measures of central tendency, including mean, median, and mode for data summarization. • Explore the concept and computation of standard deviation as a measure of data dispersion in educational research. • Develop a comprehensive understanding of the counseling needs of college students to effectively support their academic, personal, and career development. • Acquire the necessary skills and knowledge to serve as counselors in higher education, addressing students' psychological and emotional well-being.
PSO 7	<p>Programme Specific Outcomes (PSOs) for (Bachelor of Art in Education(Honours))</p> <p>After this programme, the learners will be able to:The student will be able to:</p> <ul style="list-style-type: none"> • Develop a comprehensive understanding of the concept, scope, and significance of educational philosophy in shaping pedagogical practices. • Analyze the perspectives of prominent educational thinkers, evaluating their contributions to the evolution of educational theories and methodologies. • Compare and contrast Indian and Western schools of philosophy, examining their foundational principles and educational implications. • Explore the Nyaya, Sankhya, Yoga, Vedanta, Jainism, and Buddhism philosophical traditions, with a focus on their perspectives on knowledge, reality, and values in education. • Critically evaluate the philosophical contributions of Indian thinkers such as Swami Vivekananda and Rabindranath Tagore, focusing on their impact on education. • Develop a comprehensive understanding of the concept, scope, and significance of educational sociology in shaping educational systems and social structures. • Critically analyze the perspectives of prominent educational thinkers, evaluating their insights on the relationship between education and society. • Explore the impact of urbanization, modernization, westernization, Sanskritization, and globalization on Indian society and their educational implications. • Investigate the concepts of cultural lag, cultural conflicts, and cultural unity, analyzing their relevance in contemporary educational contexts. • Examine the role of education in preserving, transmitting, and transforming cultural heritage, fostering a balance between tradition and modernity. • Analyze the interplay between education and social change, exploring how educational institutions serve as agents of cultural transformation. • Develop a comprehensive understanding of the importance of reviewing literature in academic research and its role in framing research questions. • Acquire skills to analyze, synthesize, and report research findings in a structured and academically appropriate manner. • Differentiate between primary and secondary research data, understanding their significance and application in educational research. • Develop proficiency in writing research reports, ensuring clarity, coherence, and adherence to academic standards. • Appreciate the transformative role of ICT in modern teaching-learning processes, fostering engagement, accessibility, and efficiency. • Gain familiarity with ICT-related terminology and emerging technological advancements, staying updated with global trends in digital education.

	<ul style="list-style-type: none"> • Examine the role, significance, types, and scope of guidance and counseling in education and everyday life. • Understand the concept of peace education, emphasizing its role in conflict resolution and harmonious coexistence. • Explore strategies to promote a culture of peace through education, fostering tolerance, empathy, and social harmony. • Identify and implement practices for value inculcation and clarification, ensuring holistic personality development in learners.
PSO 8	<p>The student will be able to:</p> <ul style="list-style-type: none"> • Explore the interconnection between education and psychology, examining how psychological principles influence learning and teaching. • Develop awareness of various patterns of human development, understanding their impact on cognitive, emotional, and social growth. • Examine the relationship between individual differences and educational strategies, fostering inclusivity in teaching. • Understand the role of creativity, emotional intelligence, and mindfulness in modern learning environments. • Develop a critical understanding of gender issues in education and their societal implications. • Understand the concept and importance of gender justice and equality in education. • Identify the challenges in girls' education and explore solutions for improving access and retention. • Compare and analyze the educational systems of different countries, identifying best practices. • Explore various processes of knowledge dissemination across global education systems. • Investigate the impact of socio-cultural factors on comparative education. • Develop a sense of responsibility towards environmental conservation. • Understand various environmental protection strategies and their integration into education. • Explore the role of education in fostering environmental awareness and action. • Understand the importance of child-centered education and various child-friendly teaching methods. • Examine factors influencing education, including psychological, sociological, and economic aspects. • Understand the concept, evolution, and significance of life skills education. • Develop critical thinking, problem-solving, and coping skills to enhance student resilience.
PSO 9	<p>Programme Specific Outcomes (PSOs) in (Master's of Arts in Education)</p> <p>The student will be able to:</p> <ul style="list-style-type: none"> • Understand the role and significance of statistics in educational research • Apply parametric and non-parametric tests in educational research. • Design and present research proposals, abstracts, and reports in a professional manner. • Understand the fundamentals and principles of special education, including segregation and integration. • Explore various disabilities and their impact on learning, designing inclusive instructional strategies. • Develop specialized knowledge on educational programs for children with special needs. • Identify the key components and principles of curriculum development.

	<ul style="list-style-type: none"> • Critically analyze curriculum evaluation methodologies, particularly in higher education. • Acquaint with objectives and aims of teacher education at various levels. • Evaluate the role of agencies and institutions in teacher education. • Identify problems in teacher education in India and propose solutions for reform. • Explore the fundamentals of educational management, planning, and financing. • Examine the role of leadership in effective educational administration. • Develop an understanding of mental health principles and their relevance in education. • Explore the importance of mental hygiene and its relationship with mental well-being. • Analyze various adjustment mechanisms and coping strategies for students. • Develop insight into future challenges in education and society. • Encourage awareness and preparedness for emerging trends and innovations. • Promote critical thinking and solution-oriented approaches to educational development. • Understand key concepts of educational measurement, assessment, and evaluation. <p>Differentiate between various types of evaluations and their educational applications.</p>
PSO 10	<p>The student will be able to:</p> <ul style="list-style-type: none"> • Understand key principles of measurement, assessment, and evaluation in education. • Differentiate between evaluation, assessment, and measurement in an academic context. • Learn the step-by-step process of developing standardized tests. • Explore different types of tests and evaluation techniques used in education. • Understand the role of effective educational management in academic institutions. • Understand the concept, objectives, and scope of distance education. • Explore the role of ICT, electronic media, and emerging technologies in distance learning. • Develop an understanding of population education and its significance. • Examine key terminologies and factors influencing population growth. • Gain knowledge of Vedic, Muslim, and Buddhist educational systems. • Trace the historical evolution of education in India through successive stages. • Understand various forms of media and their educational applications. • Identify stereotypes and biased representations in print and digital media • Apply analytical techniques to assess the credibility and impact of media messages. • Explore advancements in educational technology, planning, and administration. • Examine global best practices in educational evaluation and management.

Semester-VII

Bachelor of Arts in Education (Honours)

CREDIT DISTRIBUTION, ELIGIBILITY AND PRE-REQUISITES OF THE COURSE Hours: 60

Course Title	Credits	Credit distribution of the Course			Eligibility criteria	Pre-requisite of the course(if any)
		Lecture	Tutorial	Practical/Practice		
DSC: Philosophical Foundations of Education	4	4	0	0	Passed Bachelor of Arts in Education	Nil

Bachelor of Arts in Education with (Honors)		
Programme : Bachelor of Arts in Education with (Honors)		Year: IV Semester: VII Paper: DSC
Subject: Education		
Course: DSC	Course Title: Philosophical Foundations of Education	
Course Outcomes: After studying this course, the students will be able to: <ul style="list-style-type: none">• Explain the concept and importance of educational philosophy.• Analyze the views of educational thinkers.• Discuss Indian and western Schools of philosophy, their salient features and implication		
Credits: 4		Discipline Specific Course
Max. Marks: As per Univ. rules		Min. Passing Marks: As

		per Univ. rules
Unit	Topic	No. of Hours
Unit I	Education & Philosophy <ul style="list-style-type: none"> • Meaning and scope of Philosophy. • Meaning and scope of Education. • Aims of Education and Philosophy • Nature and scope of educational philosophy. Relationship between education and philosophy	15
Unit II	Indian Schools of Philosophy <ul style="list-style-type: none"> • Nyaya, Sankhya, Yog, Vedanta, Jainism, Buddhism with special reference to knowledge, reality, value and educational implications • Indian Thinkers: Swami Vivekanand , Rabindranath Tagore 	15
Unit III	Western Schools of Philosophy <ul style="list-style-type: none"> • Idealism, Naturalism, Pragmatism, Realism, Existentialism, Humanism with special reference to knowledge, reality, value and educational implications • Western Thinkers: Rousseau and Socrates 	15
Unit IV	Epistemology of Education: Epistemological Basis of Education: Knowledge , Reason and Belief ,Experience and Awareness ,Values and Ideals	15

Recommended Readings:

- Modern Philosophy of education, Brubacher, John S.
- Philosophy Bases of education, Kilpatrick
- Philosophy of Education, John Dewey
- Theory and principles of Education, JCAgarwal
- Outlines and Indian Philosophies, Sinha J.
- Great Educators, Rusk RR
- Great Educators, Mukherji, S

Suggested Continuous Evaluation Methods: For Internal Assessment (25marks) Assignment / test / Quiz (MCQ) / Seminar/Attendance

Suggested equivalent online courses: On Swayam, Vidyamitra.inflibnet.ac.in, cpg-pathshala, egyankosh.ac.in

Semester-VII
Bachelor of Arts in Education with (Honours)

DISCIPLINE SPECIFIC ELECTIVES (DSE) - Sociological Foundations of Education

CREDIT DISTRIBUTION, ELIGIBILITY AND PRE-REQUISITES OF THE COURSE Hours : 60

Course Title	Credits	Credit distribution of the Course			Eligibility criteria	Pre-requisite of the course(if any)
		Lecture	Tutorial	Practical/Practice		
DSE: Sociological Foundations of Education	4	4	0	0	Passed Bachelor of Arts in Education	Nil

Bachelor of Arts in Education (Honours)

Programme : Bachelor of Arts in Education (Honours)	Year: IV	Semester: VIII
Paper: Synopsis(Chapter I)		

Subject: Education

Course: Synopsis(Chapter I)	Course Title: Synopsis
------------------------------------	-------------------------------

Course Outcomes:

After studying this course, the students will be able to:

- Develop advanced research skills, including the ability to formulate research questions, design methodologies, gather and analyze data, and draw meaningful conclusions.
- Enhance their critical thinking abilities through the evaluation and synthesis of existing literature, identification of gaps in current knowledge, and the development of innovative approaches to their research topic.
- Improve their written and oral communication skills by effectively articulating their research findings.
- Demonstrate the ability to work independently, manage their time effectively, and take responsibility for their own learning and research process.
- Develop problem-solving skills by addressing challenges and obstacles encountered during the research process.
- Cultivate an understanding of ethical considerations in research, including issues related to plagiarism, and responsible conduct of research.
- Enhance their ability to deliver effective presentations, including the creation of compelling visual aids, engaging with audiences, and responding to questions and feedback.

Credits: 6		Dissertation
Max. Marks: As per Univ.rules		Min. Passing Marks: As per Univ. rules
Unit	Topic	No. of Hours
Unit I	Synopsis on Minor OR Academic Project/Entrepreneurship	90
